The emergency response operator will ask the caller to confirm their location and call back number with the information on record (see 1.8, 1.8.1 and 2.2.3 of this agreement). The emergency response operator will then transfer the call to the appropriate PSAP for your geographic location.

You must register the physical location of which **each** phone number provided for the service will be used (see 1.8, 1.8.1 and 2.2.1 of this agreement). If you are unable to speak at the time of the 911 call, the emergency services operator will assume that you are located at your last registered address for the service. You agree and acknowledge that should you **not** advise Harewaves Wireless Inc. of the physical location for the service, you hereby indemnify and agree to hold harmless Harewaves Wireless Inc., its agents and service providers against any and all liability arising out of the inability to access 911 Emergency Services.
